

Myriad Vision 50UHD-2

With Myriad Document Cameras you can make a strong impact on your audience, adding visual content to enhance your presentation by showing your content on a larger scale - in fine detail.

The Myriad Vision 50 UHD-2 (Ultra High Definition) is portable, lightweight and includes powerful features. This model provides 8MP output imagery through both photo and video and supports 4K output. The MV 50UHD-2 model also supports the capture of A3 size print material, making it incredibly useful when sharing students work or a double page spread of a textbook, encouraging student led collaboration.

Myriad's Document Cameras integrate seamlessly with our SPARK II lesson software, enabling teachers to demonstrate and interact with students in real-time; which allows teachers to create lessons that are infinitely more engaging. Alternatively, connect your visualiser to a PC and use Genee Toolbar software to annotate, take stills, zoom and more.

Setting up your Myriad Document Camera couldn't be simpler; plug into a power source, connect the USB cable to your computer/ screen, launch the software and you're ready to start your presentation.

Key Features & Benefits

UHD

Ultra High Definition

This document camera is UHD giving you a crisp and clear image and video output.

Fixed Focus

The Myriad Vision 50UHD-2 has a fixed focus lens that you don't need to worry about adjusting with each use.

Image Freeze

Show a still image on the screen without any movement allowing you to annotate over it and analyse easily.

Large Scale

Simply press the 'Auto' button on the side of the visualiser for auto adjustment of brightness and white balance.

Lightweight & Portable

This document camera is lightweight at just 850g, making it easy to use and very portable. Ideal for a classroom

Digital Zoom

With the digital zoom function you are able to expand upon the finer details of your object / document.
